

**“AN ADVANTAGE IN LIFE IS HAD BY THOSE
WHO DO WHAT OTHERS ONLY TALK ABOUT.”**

John F. Kennedy (1917-1963)

Synergies

United expertise
One interface

- ### TEXX ENERGY AG
- 1 • Research and development of **grid-based** charging Technology
 - 2 • Development of **charging concepts** for electric mobility
 - 3 • Build up and operate a **network of charging stations**
 - 4 • Equipment supplier for utilities and households

- ### TEXX AG
- Research and development of **vehicle-based** charging Technology
 - Development of **Battery Management Systems**
 - Products for **efficient storage** usage
 - Supplier for vehicle manufacturers

Electric mobility – why it is so important

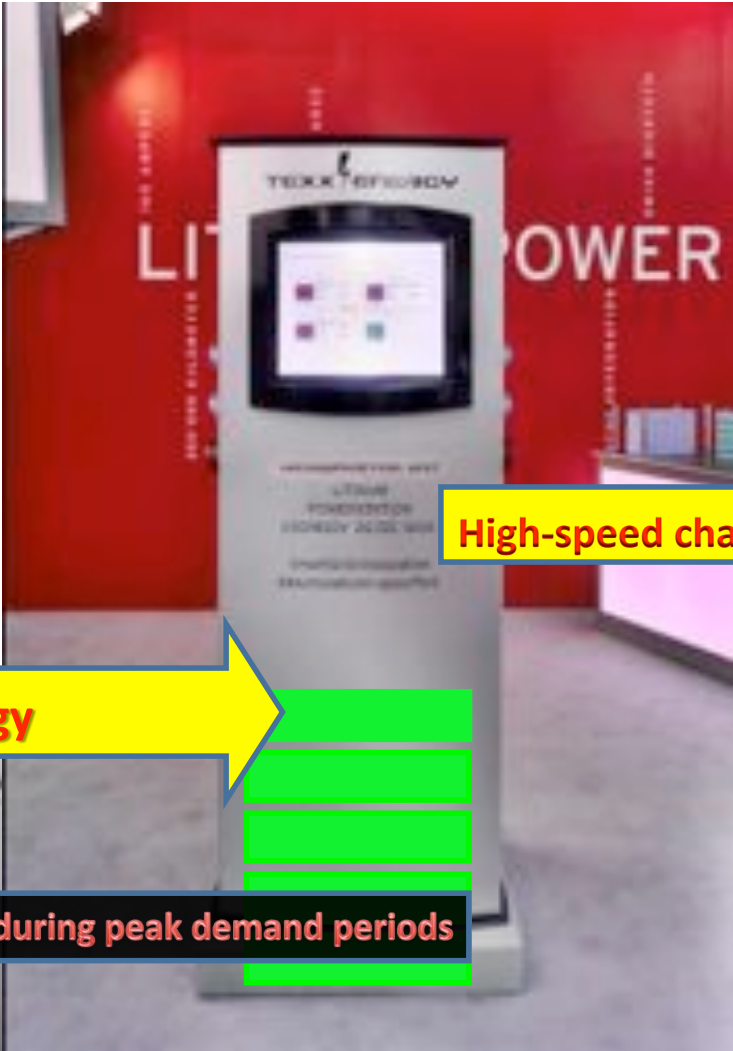

Increases energy efficiency by factors of magnitude

Substitutes oil with electricity

Station to Grid - S2G storage and buffer

Bi-Directional High-Speed Charging Station

High-speed charging 160+ A

Surplus energy

Retrieval during peak demand periods

Storage high-speed charging station

- V101T High-Speed Charging Station 100A Home
- V211S High-Speed Charging Station 160+A Highway
- V312B High-Speed Charging Station Bi-Directional

A new Ecosystem of products and services

Billing

Payment

Advertising

Authentication

Storage management

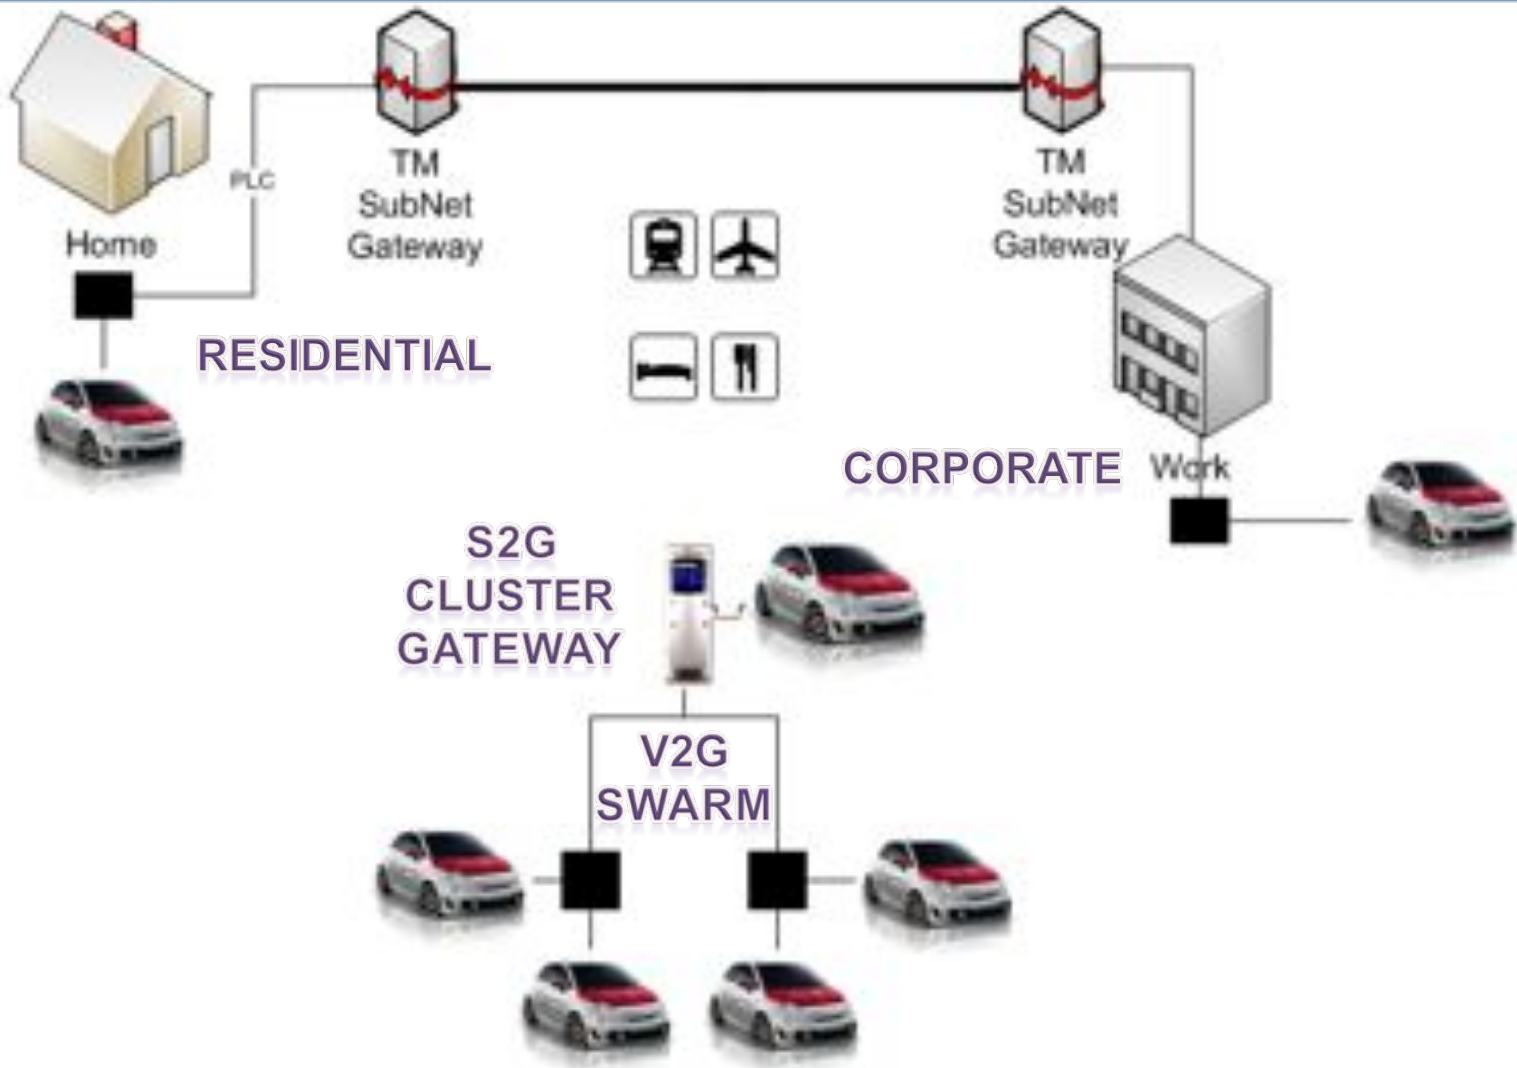

Service desk

Parking fee management

Maintenance of charging stations

Planning and setup of charging stations

Smart Grid – Power Storage Networks

Yes we do

Thank you for your attention
